

In attendance:

Donna Goulart – It is by chance that Donna came into our lives. I put Faith in charge of insurances and she found one firm who was located in both Attleboro, her hometown, as well as Franklin. William Palumbo Insurance was that very firm and I went and met with Donna in a flurry one day. Donna wrote the bonds, general liability, & Professional liability policies for Ten Key and through those initial interactions I knew that she was of the utmost character & completely professional. Donna encouraged me to get involved with the Women's Success Network and also the local Chamber of Commerce. I did not know that we would be dining together so much each month!!

Donna is one of the most connected women I have met in Franklin. I have yet to meet one person who does not rant and rave about her. Donna loves to travel, but like me, is addicted to her blackberry and always connected to her firm and more importantly ~ her clients. Donna is a loving mother and spouse. She enjoys sampling wine and most of all networking. I joked with Donna @ my home one night a few weeks ago that there are support groups for people like her ~ 'Networker's Annonomus' !! She simply smiled and said, "I gotta get off to Rottery now! Ta! Ta!"

Donna now handles all of our families policies and takes the time to sit with me and whatever baby I may be dragging into her offices! She is always looking out for our company and for my household. We are so lucky to have Donna in our Ten Key family. Donna ~ Thank you.
